There has been a movement on foot during the past week, to have vocal music introduced as a science, in the publie schools of this place. The board of education have consented to have it taught in school hours, and as one of the branches of education; but as the school fund is not in such a condition as to employ a teacher, it has been proposed to pay a teacher by subscription of the parents of the scholars attending the schools. Mr W. D. McLain, a teacher of high reputation, is now amongst us and is to be engaged for this purpose. Mr. McLain comes highly recommended, and as he has been engaged for some time in instructing children in this science, there is no doubt but that he will be well putrouized. There is a new feature in his mode of instruction, which will be of great advantage; he teaches to write as well as read music, so that the scholars will be able to dispense with printed music books. ago in the Buckeye State.

FREE LOVE ASSOCIATIONS.

·Free Love Associations undermine the foundations of society, and tend to make a fearful ruin of the temple of our happiness and hopes. In the garden of the heart there are many bright, beautiful and precious flowers, whose gay times gladdens and whose perfame gives delight; but, like a mildewed blast, the poisoneus breath of there associations comes, and all the flowers droop, wither anddle. True love is the silken band that hinds our hearts together in kindness, amity and sociability it is the golden cord let down from Heaven to draw us thither; but this foul demon would break the band and cut the cord, and let man run wild without any tender and humanizing attachments, without any inspiring or cheering hope.
